Harper Chalice

Integrated Perimeter Security Specialists

Products

Harper Chalice are the only manufacturer to offer both top of the range PIDS and electrified fence solutions, allowing us to provide the best solution for our customer's needs. All products are designed in-house in the UK allowing the best support and bespoke designs for unique applications

Both electronic and mechanical products are manufactured in the UK. All products are government approved and have a 3 year warranty. Our PIDS system has the lowest false alarm rate from government trials. Our electrified fence has a higher rating than any other passed by CPNI Scalable solutions to fit the customer's risk and economic needs

Harper Chalice

Integrated Perimeter Security Specialists

Historic Achievements

PulseSecure is the first Electrified Perimeter Security System to achieve 'SEAP Class 4' "Highest Security Specification" for use on Top Secret and High Security sites. Harper Chalice Group Limited is the first company to achieve SEAP Class 4 for Electrified (PulseSecure) and Fence Intrusion Detection system (FenceSecure)

PulseSecure is the first perimeter security system to achieve 'ACPO Secured by Design' "Police Preferred Specification". PulseSecure has achieved a higher CPNI rating than any other electrified perimeter security system tested. FenceSecure system evaluated, approved and specified by HM Prison Service

Design Considerations

- ✓ Threat/Risk
- ✓ Environment
- ✓ System cost
- ✓ Resistance to defeat
- ✓ Cost of ownership
- ✓ Response

Harper Chalice

Integrated Perimeter Security Specialists

Product Portfolio

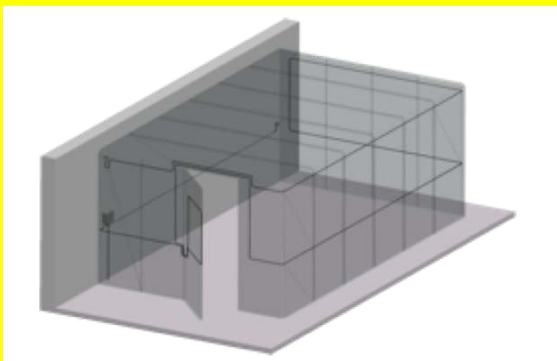

PulseSecure

FenceSecure

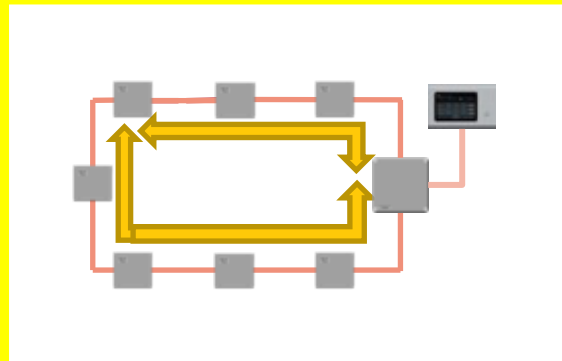

WallSecure

CageSecure

TriSecure

SecureBus

Harper Chalice

Integrated Perimeter Security Specialists

PulseSecure

- ✓ Electrified Perimeter
Deterrent and Detection
- ✓ Fully Monitored
- ✓ CPNI Approved
- ✓ Simple Integration to any
SMS or CCTV System
- ✓ Can be installed onto any
fence or wall

Harper Chalice

Integrated Perimeter Security Specialists

FenceSecure

- ✓ Suitable for use on most types of perimeter fences
- ✓ Can be used in conjunction with fence or wall topping
- ✓ Provides complete perimeter fence detection
- ✓ Simple Integration into existing SMS, VMS or CCTV System

Harper Chalice

Integrated Perimeter Security Specialists

WallSecure

- ✓ Benefits from the same Technology benefits as FenceSecure
- ✓ Detection of Gross Attack and Penetration
- ✓ Each Zone can be up to 300m
- ✓ Single point of set up for entire zone
- ✓ Can be installed on inside face or external face of wall or cladding

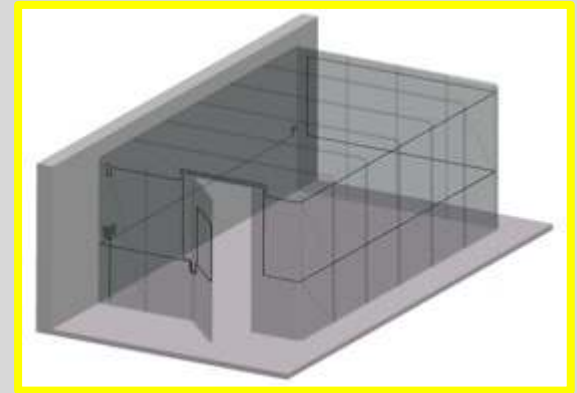

Harper Chalice

Integrated Perimeter Security Specialists

CageSecure

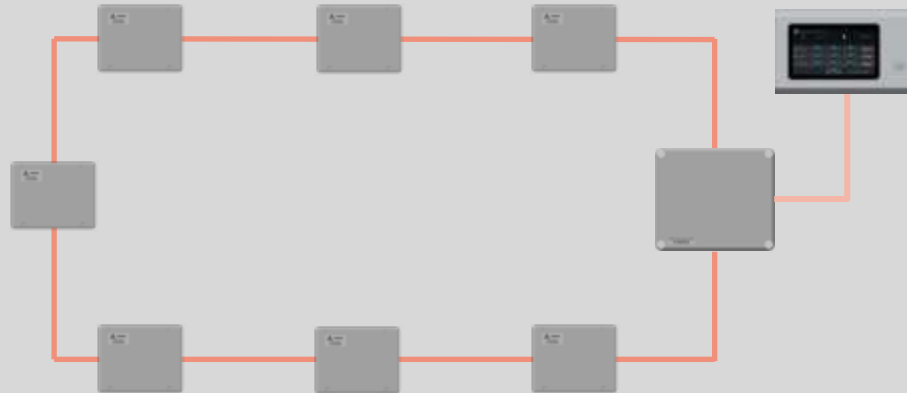

- ✓ Benefits from the same Technology benefits as FenceSecure
- ✓ Ideal for protection of secure cages, chemical stores or HV cages
- ✓ Simple Installation method
- ✓ Full Protection from Single point of set up

Harper Chalice

Integrated Perimeter Security Specialists

SecureBus

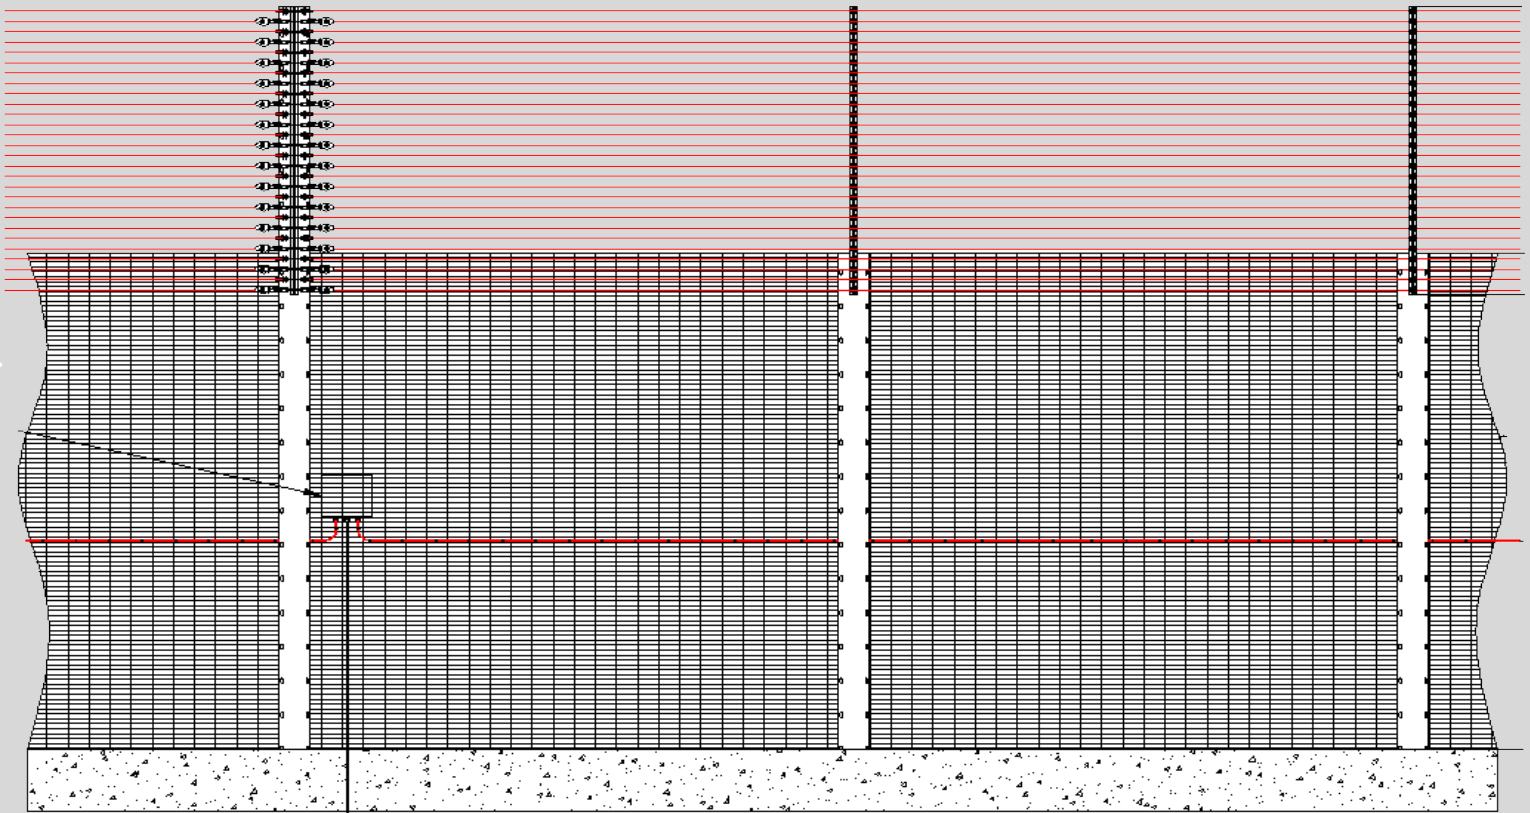

- ✓ A SecureBus network controller
- ✓ A fault tolerant RS485 communication ring
- ✓ A touch screen keypad
- ✓ Add up to 128 devices to the network

Harper Chalice

Integrated Perimeter Security Specialists

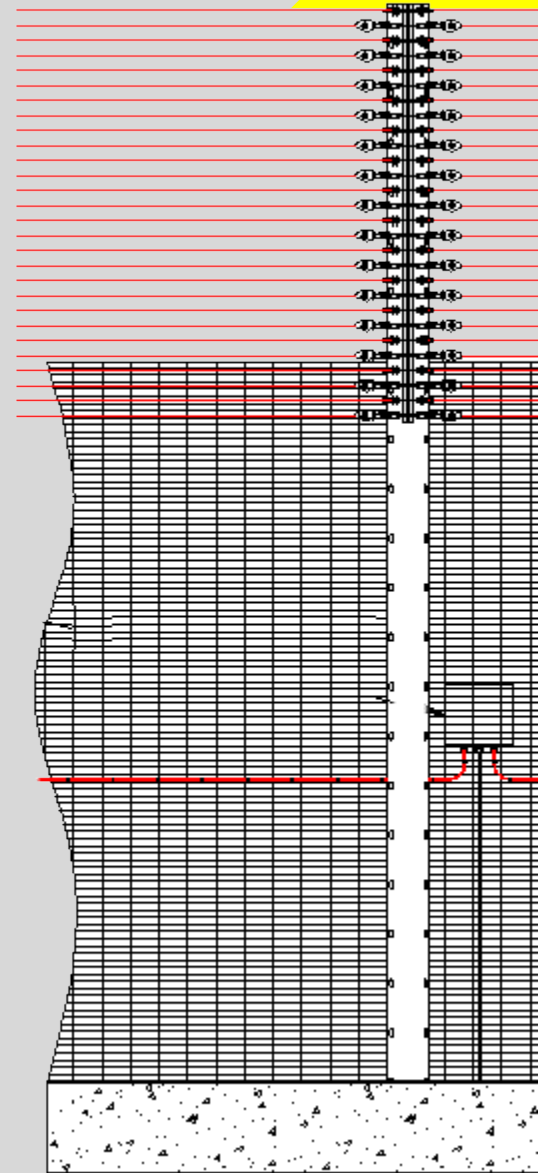

TriSecure

Harper Chalice
Integrated Perimeter Security Specialists

TriSecure

- Combines both PulseSecure & FenceSecure systems
- Removes inherent limitations / issues of singular technology
- PulseSecure Topping Provides the best possible protection against climb over attack
 - Vegetation maintenance issues are removed
 - Removes the reservations of staff or contractors working at Ground level from accidental shocks.
- FenceSecure PIDs protect against penetration of the fabric
 - No requirement for climb over detection (Due to the PulseSecure Topping)
 - Penetration is a more aggressive attack than climbing and therefore sensitivity can be reduced, resulting in reduced false alarms from the PID system
